Narrative description of project:

A new retail shopping complex developed by Old Mutual Namibia. The complex will cater for supermarkets, restaurants, clothing chain stores, banking facilities, insurance companies, post office, telecommunication and more. The site is ideally situated to serve the centre of town as well as adjacent townships.

Description of actual services provided by your staff:

WCE is responsible for all engineering disciplines, ie bulk earthworks, structural design, electrical infrastructure, mechanical design, stormwater, water and sewer reticulation. Preparation of Engineering Designs, Drawings and Tender Documentation. Quality Control is exercised in terms of General Conditions of Contract and SABS 1200 Specifications. Duties also include Contract Administration and Site Supervision.
