Narrative description of project:

Provision of a military driving school at the Osona Base, to replace the one at Okahandja, which was both outdated and in the way of future projects. The project includes sleeping quarters for 32 personnel, a training centre, a garage for 4 vehicles, shade ports for 6 heavy vehicles, a wash slab with ramp, compressor room, a pull-away ramp, reverse parking testing as well as a large area of fragmented paving to facilitate stormwater drainage for the old as well as the new area.

Description of actual services provided by your staff:

Duties consist of the design, tender procedures, contract administration, supervision and quality control.
